## WHAT IS THE DREAM LEADERS PROGRAM?

Dream Leaders engages all youth, with an emphasis on at-risk and those with disabilities, in an innovative leadership and service-learning program. Young people, many who have never been asked to lead, are given an opportunity to be the solution instead of being seen as the problem. Being reminded they have something to give and making a difference in the community and in the lives of others is transformative.

The program is open to all middle and high school students. The leadership curriculum is designed to educate on local and global issues, teach practical business and entrepreneurship skills as students develop their own dynamic social enterprise.

The Dream Leaders program empowers young people to develop a positive self-identity while learning the life skills necessary to build their future on a foundation of generosity and community engagement.

## HOW CAN YOU GET INVOLVED?

We are seeking passionate individuals, university groups and civic engaged companies to adopt a local youth group. Your sponsorship provides a full year of leadership training and service learning and gives you and your company or group a variety of mentorship and volunteer opportunities.
